A. YOUR POLICY Please take the time to study this document and understand the benefits applicable to this insurance Policy. The life assurance Policy terms and conditions, the application form, communication of acceptance through SMS, an e-mail and the schedule of benefits (printed on the website or upon request) enforces the Policy contract between the Life Assured and Enterprise Life (the life insurer). A Policy document contains many legal and technical terms, which are required to protect both the life assured and the life insurer. Enterprise Life has, as much as possible, set out the terms in plain English in the interest of the Policyholder's clear understanding and communication. Please be advised that you are not entitled to any benefits under this Policy until you have received confirmation from Enterprise Life that your application has been accepted and the first premium received. Please read these documents carefully and keep them in a safe place for future reference.

B. BENEFITS DESCRIPTION

Enterprise Executive Plus Plan has been designed as an all-inclusive product to meet the death and survival needs of the Policyholder. The benefits are as follows:

1. Main Benefits

1.1. Basic Risk Benefits

The basic risk benefits comprise of Death, Total Permanent Disability (TPD) and Critical Illness (CI), and this comes in Accelerated and Standalone forms. The policyholder also has the option to choose either as:

Main life only

This is the option where only the main life qualifies to claim on the policy should any of the insured event occurs.

Joint life

This option is designed to cover couples in the event of either one or both dying, contracting a critical illness or becoming totally permanent disabled. A financial assessment determines the allowable sum assured. The rationale is for the dependents not to suffer financially in the event of a spouse's death. Benefit payment is on first death basis as well as an option for last death. A policy owner will be named at inception so that in the event of a divorce the policy will revert to single life for the policy owner.

The Basic Risk options are summarized in the table below:

	Main Life Only	Joint Life
Accelerated	• Death & TPD • Death & CI • Death, TPD, & CI • TPD & CI	• Death & TPD • Death & CI • Death, TPD, & CI • TPD & CI
Stand Alone	• Death • TPD • CI	• Death • TPD • CI

Depending on the option chosen, the Policy will pay a lump sum equal to the sum assured in the event that the Policyholder dies, becomes permanently disabled or contracts a critical illness.

The Critical Illness option pays out a percentage of the sum assured in the event of the Policyholder being diagnosed with a defined illness. The details of the critical illnesses covered, and the lump sum payable are given in Appendix A.

The minimum age at entry is 30 and the maximum is 70 years for Death, Critical Illness and 55 years for Total Permanent Disability (TPD). However, the basic cover for Death and Critical Illness ceases at the age of 80 and Total Permanent Disability ceases at age 60.

1.1.1 Free Annual Medical Screening or Spa Treat

1.1.2 Free Annual Medical Screening

This benefit entitles the policyholder to a free annual medical screening. The results of this screening will have no bearing on the premium charged.

1.1.3 Spa treats

This will permit the policyholder to enjoy a spa session with an Enterprise Life selected vendor.

The policyholder will have to select one of these benefits.

1.1.4 Cash Back

This benefit pays out 20% of the risk premium. It is payable for every three years under the policy if there has been no claim on the policy during the three-year period under consideration, and if the policy is still active. This is exclusive of the policy fee of GHS1.00.

1.1.5 Retrenchment Benefit

The retrenchment benefit shall become payable in the event of the Policyholder (or spouse in the case of joint life) being retrenched and being without employment for a period exceeding 30 continuous days, subject to 12-months waiting period from inception. The benefit payable shall be 10% of the sum assured, capped at GH¢ 50,000.00. This benefit is payable only once in the lifetime of the policy.

Sums assured for the return of premiums are capped at GHS 500,000. Sums assured in excess of this amount will not be eligible for premium refund. Where a policyholder selects a sum assured greater than GHS 500,000, the premium refund that will be due the policyholder will be calculated as;

Option 2	GHS500
Option 3	GHS700

This benefit becomes payable after a minimum of two nights in hospital. This implies that benefits will not be payable if the life assured is hospitalized for a period less than 2 nights. However, once the minimum of 2 nights has been exceeded, benefit payments will commence from day one when the policyholder was hospitalized.

Hospitalization benefits will be limited to a maximum period of 30 days per calendar year. However, hospitalization benefit cease at age 60.

This cover seeks to help the policyholder to save towards the educational needs of dependents while securing these needs with cover against Death and Total and Permanent Disability. In the event of Accidental Death, a double of the sum assured will be paid to the policyholder. The policyholder selects an amount which becomes the target amount to save towards at the start of the policy. The monthly premium paid will be the target amount divided by the 12 and divided again by the Edusaver term.

$$\text{Monthly Premium} = \frac{\text{Target Amount}}{12 * \text{Edusaver term}}$$

If the covered event occurs to the policyholder during the term of the Edusaver, the higher of the target amount or the client's investment account will be paid. Risk charges will be deducted out of the policyholders' investment account. If the covered event doesn't occur before the end of the policy, then the value accrued in the investment account will be paid out to the policyholder.

The policyholder must select an Edusaver term. The minimum Edusaver term is 5 years and the maximum Edusaver term is limited by the max cover cease age. At the end of the selected term, the policyholder will be entitled to the full cash value without penalties.
